

## The Cyclops Comic Strip

Directions: One reading strategy that good readers use is to visualize (or picture) what they are reading to make sure they are understanding what they are reading. While reading "The Cyclops" episode in *The Odyssey*, you will be creating a comic strip about the important events. This will make sure you are picturing what is happening.

Since this is not an art class, you will not be graded on your artistic ability. You will, however, be graded on your effort (slides should be neat and colorful) and accuracy (draw what is described in the epic poem). After completing each frame, write 1-2 complete sentences about what happened in those lines. Put these sentences in your own words!
